EXPERIENCE

Assistant Manager | Dollar Tree

Jul 2024 - Present

- Managed a small team to execute daily operations by assigning tasks and delegating responsibilities.
- Addressed customer questions and complaints in person and by phone.
- Assisted and instructed employees on various tasks.
- Promoted open dialog with employees to actively take in complaints and concerns and adjusted the workplace accordingly.
- Handled many responsibilities in a fast paced work environment.

Financial Coordinator | Strategic Family Solutions, LLC

Aug 2022 - Present

- Improved office operations by automating record and data tracking.
- Managed payroll data entry and processing for 17+ employees to comply with predetermined company guidelines.
- Complied with HIPAA guidelines for consumer and company PII and SPII.
- Managed daily financial functions including accounting and payroll.
- Prepared balance sheets, cash reports and income statements.
- Generated monthly reports in compliance with regulatory and organizational standards.

CAP 2 Associate | Walmart

Jan 2019 - Aug 2022

- Consistently volunteered up to 20 hours a week overtime to finish tasks the team could/did not complete without being prompted.
- Effort eased the workload and strain on the following shift's workers and overall, made things move both more smoothly and efficiently.
- Established a good working relationship with another shift by communicating and compromising, turning a mostly negative disposition towards my team into a much better one.
- Volunteered to assist with tasks, demonstrating willingness to learn, increase skill levels, and take on more responsibility.
- Located needed merchandise in inventory using inventory software.
- Coordinated efficient organization, palletizing and transportation of completed packages.

PROJECTS

Creating-an-algorithm-for-file-updates-in-python

- In this project we'll use a security event to create a plan to improve a company's network security, using the NIST Cybersecurity Framework.

Incident-Report-Analysis

- In this project we'll use a security event to create a plan to improve a company's network security, using the NIST Cybersecurity Framework.
